preparation
for entry
into:

- Scholarship programs
- Select entry high schools
- Private & independent schools
- Accelerated learning programs
- High achiever programs

Information Book 2018/2019

WHO WE ARE

Hendersons Educational Services specialises in exam preparation, and assists students in gaining entry into Victorian Primary and Secondary schools. We are a company founded, owned and operated by teachers since 1990, providing individualised support to thousands of students as they strive to achieve academic excellence.

We offer a broad range of workshops and courses, the majority of which assist students in gaining entry to selective high schools and scholarship programs. These programs are designed to provide students with the skills specific to entry exams, such as how to answer questions quickly and find patterns in questions. They are therefore not designed to assist with classroom learning.

Hendersons does offer more general classroom support via group skills and enrichment workshops and individual tuition. These programs aim to raise students' skills in both Maths and English. These are NOT focused on exam preparation.

Hendersons programs include, but are not limited to the following;

- Exam preparation for entry into:
 - Scholarship programs
 - Select entry high schools
 - Private and independent schools
 - Accelerated learning programs
 - High achieving programs
- General exam tips and techniques
- Practice exams
- Skills and enrichment programs for high achieving students
- Educational assessments
- One on one tutoring
- Portfolio preparation techniques
- Interview skills for scholarship and Principal's discretionary interviews

Please see our website for a full list of programs, program outlines, dates, times and prices. Please note, additional programs are added throughout the year so please keep an eye on your email inbox for regular workshop updates that may be of interest to you.

Hendersons offers programs that are short and succinct based on research that shows that the first ten hours of study, when held close together, enables the greatest amount of learning to take place. *E.g. Intensive Course Delivery Mode [Pedagogical Possibilities for the Professions] The University of Adelaide SA.* In addition to this, the close proximity of our classes enables our teachers an unprecedented opportunity to analyse errors which may otherwise be dismissed as simple slips.

All Hendersons teaching staff are experienced and highly qualified teachers. They are carefully selected to ensure our philosophy and exemplary teaching standards are maintained. We train all our teachers in the delivery of our specially designed programs, which are written by ourselves.

HOW SCHOOLS SELECT STUDENTS

EXAMINATION INTAKE

The main entry intakes are for Years 5, 7, 9 determined primarily by student performance in a formal examination.

- The earliest scholarship exams for 2020 entry to Victorian private schools are scheduled for October and November 2018, but most will be held between February and April 2019.
- Examinations for Year 7 entry to Victorian government schools are usually held in April/May but this is subject to change.
- The Melbourne High, Mac Robertson Girl's High School, Nossal High School and Suzanne Cory High School Year 9 entrance examination is usually held in the middle of June.
- The John Monash Science School entrance exam for Year 9 Entry is usually held on the second Saturday in June.

Some schools may also request an interview after the examination process to meet with you and your child. As part of this interview, you may be required to submit an application letter or portfolio. Should you and your child find yourself in this position, Hendersons provides a service that will assist you and your child with your preparation.

We must emphasise that it is the independent responsibility of each family to contact the school of their choice to confirm exam dates and lodge the relevant entry forms.

WHO WRITES THE EXAM FOR EACH SCHOOL

There are a number of companies who write the entrance and scholarship exams for schools (with the exception of Scotch College and Melbourne Grammar). For details regarding which school has which exam, exam dates and enrolment details, contact the following organisations;

•The Australian Council of Educational Research (ACER)

Ph: 8508 9049 www.acer.edu.au

•Academic Assessment Services (AAS)

Ph: 9866 3603 www.academicassessment.com.au

•Edutest™

Ph: 9014 1411 www.edutest.com.au

•Department of Education and Training for the Selective Entry Schools

www.education.vic.gov.au/school/parents/secondary/Pages/selective.aspx

WHAT THE EXAMINATION COVERS

Entrance exams measure a child's technical skills and knowledge, as they are believed to be a good indicator of natural ability. The content of these examinations is often based on the following subjects:

- Mathematic Problem Solving and Reasoning
- Mathematics
- Humanities Comprehension or Reading Comprehension
- Verbal Reasoning
- Numerical Reasoning

HOW SCHOOLS SELECT STUDENTS

SELECTIVE ENTRY SCHOOLS (Year 9, 10 and 11 entrance)

The State Department of Education uses a centralised selection process to admit students to Melbourne High School, Mac.Robertson Girls' High School, Nossal High School and Suzanne Cory High School, collectively known as the Selective Entry High Schools.

Prior to the entrance examination, you will need to submit an enrolment form, indicating your choice of the four selective entry schools by order of preference. More details may be obtained from the Victorian Department of Education.

Students who sit the selective entrance examination are ranked according to their aggregate score, and places are offered accordingly.

- 85% of the Year 9 enrolments are selected from entrance examination results alone.
- 10% of places are allocated according to rank, score and equity considerations.
- 5% are selected through a 'Principal's discretionary selection category' . They are invited to attend an interview with the principal of the school, during which they may be asked to present a portfolio of achievements.

2017 Select Entry High school Results

Of 460 students that completed Hendersons workshops and practice exams in 2017:

290 students gained a place at their desired school (63%)

School	Melbourne High	Mac Robertson Girls	Nossal High	Suzanne Cory
Total Number of Places Offered (First Offers & Principal Discretion)	303	203	180	180
Places Offered to Hendersons Students	107	70	68	45
Places Offered to Hendersons Students(%)	35%	35%	38%	25%

ACCELERATED LEARNING PROGRAMS (SEAL Schools)

In 2019, 38 government high schools will offer programs for very able children, designed to accelerate them through High School and reduce secondary schooling from six years to five years. Entrance is by competitive examination, interview and teacher reference. A vast number of students who are selected to partake in this accelerated program will complete all content from Years 7-10 in three years instead of four.

HIGH ACHIEVERS' PROGRAMS

Many state secondary schools offer High Achievers' Programs. These programs give advanced students the opportunity to engage with likeminded peers, and to extend their learning beyond the standard curriculum. Entrance to these programs is by competitive examination, interview and teacher reference.

ELIGIBLE STUDENTS

Students who gain entry into a scholarship program, select entry school or an accelerated learning programs tend to be some of the highest achieving students across the state. In most cases, selective entry schools select students based solely on results attained in the examination, which equates to around the top 5% of all students in the state.

Your child's NAPLAN results are a good indication of how your child may perform in these examinations (please see below to learn how to read your child's NAPLAN).

Hendersons offers fast paced, intensive workshops covering content and skills specific to entrance examinations. These workshops are tailored to suit academically gifted children. We therefore do not recommend classes to students who sit outside the top 15% on their NAPLAN for both Maths and English. We have found that students who perform below this level tend to struggle to keep up with the pace of our workshops, and can become distressed and unenthused to return.

Year 3 NAPLAN RESULTS

Year 5 NAPLAN RESULTS

Year 7 NAPLAN RESULTS

[The recommended level for your child's results is indicated in the brackets above.]

We appreciate that NAPLAN is simply one indicator of performance, and as such, we offer a 3 hour assessment to determine your child's suitability for our programs for parents who require additional advice. See page 8 for more details.

WHICH CLASSES SHOULD I BOOK?

1. DISCUSS

We advise that all parents instigate a discussion with their child's teacher to gain an insight on the child's suitability to both their preferred school and Hendersons programs.

2. SELECT

Choose a list of schools you are applying for and take note of their application deadline and examination date.

3. RESEARCH

Investigate who writes the entrance/scholarship examination for the school you would like your child to attend. This information, readily accessible on most school websites, will form the basis of your child's enrolment at Hendersons, and determine which classes he/she needs to attend. Please refer to our recommended packages on pages 8 to 12.

4. BOOK

Use our online booking system at www.hendersons.com.au to select the dates for each workshop and practice exam you would like to attend. To work out what year level workshops to choose, you simply have to work out what year level your child will be in 2019. For example if your child is in year 6 in 2019, you would enrol your child into the year 6 workshops. See below for more examples.

Childs' year level in 2018	Childs' year level in 2019	Applying for 2020 entrance	Recommended workshop level for exam preparation
3	4	Year 5 entry	Year 4 Workshops
4	5	Year 6 entry (Yr 7 entry for Scotch College or MGS)	Year 5 Workshops
5	6	Year 7 entry	Year 6 Workshops
6	7	No entry	See our Skills & Enrichment workshops
7	8	Year 9 entry	Year 8 Workshops
8	9	Year 10 entry	Year 9 Workshops

Booking guidelines:

- Ensure you select only the workshops applicable for your child's year level and the examination format your child is sitting for. If you are unsure of what to select, please contact our main office to discuss our recommendations.
- We recommend making your bookings in the few months prior to your actual exam date.
- We do not allow students to sit more than one class a day and recommend that students only complete one program at a time whilst keeping all practice exams to the very end.
- You only need to attend each workshop once. I.e. You cannot repeat the same workshop.
- You must be able to attend all dates within a workshop. Dates cannot be swapped between groups.
- Year 4 and 5 students must attend a workshop before attending a practice exam.
- Registration requires a copy of your child's most recent NAPLAN results and any medical action plans for your child.

5. CONFIRM AND MAKE PAYMENT

Our staff will receive your booking and send you a confirmation, along with your invoice, once we have processed your booking. Payment is required at the time of booking. *We accept Bpay payments, bank transfers or credit card payments over the phone.*

Please see our terms and conditions on our website for our cancellation policy. Fees may apply and we require all changes or cancellations to be submitted in writing.

HENDERSONS SERVICES

EXAM PREPARATION

Mathematics

Our maths workshops focus on problem solving skills and exam techniques. They are not intended to provide students with additional training in the basic processes of mathematics. Students applying for a scholarship or entry to a selective school should already be proficient in mathematics.

There are two stages in solving any problem.

- Analysis – What is this problem really about?
What data does the question have which may help solve it?
- Strategies – The skills that will help to solve the problem.

Reading Comprehension

This course aims to teach students the skills of inferential reading, as well as how to interpret maps, diagrams, charts and illustrations.

Creative Writing/ Write Creatively

Our emphasis here is on the structure of an essay, the use of expressive language and the way to respond to an illustration or other prompts.

Analytical Writing/ Opinion Writing/ Write To Inform (incorporating persuasive, analytical, informative and discussion-based styles of writing)

Our emphasis here is on the organisation of this type of essay, the use of effective language and the most effective way to express an opinion and substantiate a point of view.

Verbal Reasoning

This course aims to develop the skills required to identify relevant language techniques and relationships, and to teach students to solve problems using words and language. These tests include verbal analogies, synonyms, antonyms and logical reasoning.

Numerical Reasoning

The focus of this course is to explore the skills needed to ascertain specific relationships and solve problems using numbers. These tests include missing numbers, worded problems and logical reasoning.

Abstract Reasoning

A half-day course to teach our techniques on how to attack and solve these puzzle-like papers.

Science Reasoning

A half-day course to look at examples of questions relating to Science topics, so as to increase confidence in this style of reasoning.

Writing for Science

This program encourages student to consider the different types of English language used in the context of science. Students are taught to write about science in a persuasive and analytical manner, and how to accurately inform an audience about a scientific area of interest. Students also receive guidance on the correct way of reporting on and analysing an experiment.

Practice Exams

These are fundamental to our program. Every practice exam comes with complete performance analysis (in a group) with detailed explanations for every answer. We provide you with the most authentic testing experience outside of the actual exam as students adhere to strict exam conditions. Results are handed back to students and parents within 15 minutes of the conclusion of the exam with written explanations. Following comprehensive group analysis, individual consultations with correctors are available to further discuss feedback for written essays.

We strongly recommend booking at least one practice exam for students to become familiar with the expectations and time management required. **Year 4 and Year 5 students must have completed a workshop to sit a practice exam.**

HENDERSONS SERVICES

OTHER SERVICES

Skills and enrichment programmes

These small, group based workshops are designed to enhance and improve upon each student's existing Maths and English ability. These courses are NOT focused on exam preparation.

Individual tuition

Private tuition for general improvement and extension of school work is available throughout the school term. Tuition is held after school until 8.30pm at our Hawthorn East office on weeknights (Fridays excluded). Students book on a term by term basis for one hour sessions during the school term.

Assessments

If you seek guidance as to whether or not your child should sit a scholarship or entrance exam, an individual educational assessment at Hendersons will provide some clarity. Our educational assessment will reveal any specific weaknesses that a student may have in the basic subjects of reading, writing and mathematics. They take three hours, including up to fifteen minutes feedback and cost \$325.

Interview preparation

Hendersons can assist your child by conducting a one and a half hour mock interview prior to their real interview. The purpose of this mock interview is to familiarise themselves with the pressure of an interview situation, and how to respond to common questions with confidence and eloquence. If required, we can also assist your child to compile all academic and personal achievements into a portfolio that may be presented to the school or principal on the day of the interview.

Application/ portfolio assistance

Hendersons provides a service that will enhance your child's entrance application, and ensure that all their brilliant achievements have been communicated to the school in a clear and comprehensible format. These appointments, each one hour in duration, are coordinated by some of our most experienced senior teachers, who will meet with you to discuss and review an existing application letter.

Essay correction service

For students who have completed one or more of our writing workshops, additional essay topics are available to purchase and complete at home. Hendersons advises parents to supervise the completion of these essays, and to impose strict time constraints that replicate those imposed in a real exam situation. These essays are then posted to a teacher, who corrects and returns the essay within 48 hours of receiving the essay.

Information sessions

Our information sessions are held across a 90 minute period, and will answer any questions you may have regarding Hendersons and any of our highly successful academic programs. If your child is in year 5 or above, we recommend you bring them along to the session. Bookings are essential and can be made online via our website.

YEAR 4 PRICES AND PACKAGES

SCHOLARSHIP EXAMS

For students applying for year 5 scholarship entry in 2020.

There are three main companies that write the papers for the various exams on behalf of the schools.

ACER – Australian Council for Educational Research

AAS – Academic Assessment Services and

EDUTEST

Note: It is the independent responsibility of each family to find out which examining body is responsible for writing the entrance examination to your school of choice. This information is used to determine which of our workshops your child must attend to fully prepare for his/her scholarship or entrance examination.

INFORMATION SESSIONS FOR 2018 - 2019

Come and meet us!

A free information session covers exam formats for:

- Scholarships to private schools
- Entry exams to private schools
- Entry to accelerated learning and high achievers' classes
- Entry to Melbourne High, Mac. Rob, Nossal & Suzanne Cory
 - Entry to John Monash Science School

We look at the formats of various exams. Learn how our knowledge can help your children perform at their best. Sessions last for about an hour, with questions taking the sessions usually to 90 minutes.

If your child is in Year 5 or above, we do suggest you bring your child with you.

**Our information sessions are held at
Suite 102, 393 Tooronga Road, Hawthorn East, 3122.**

Sunday 12th August 2018	5.00pm – 6.30pm
Tuesday 14th August 2018	7.00pm – 8.30pm
Wednesday 22nd August 2018	7.00pm – 8.30pm
Sunday 2nd September 2018	5.00pm – 6.30pm
Wednesday 12th September 2018	7.00pm – 8.30pm
Wednesday 10th October 2018	7.30pm – 9.00pm
Sunday 21st October 2018	5.00pm – 6.30pm
Wednesday 31st October 2018	7.30pm – 9.00pm
Sunday 11th November 2018	5.00pm – 6.30pm
Wednesday 21st November 2018	7.30pm – 9.00pm
