
ENTRANCE EXAM PREPARATION

*Melbourne High • Mac. Robertson Girls' • Cory High
Nossal High • John Monash Science School*

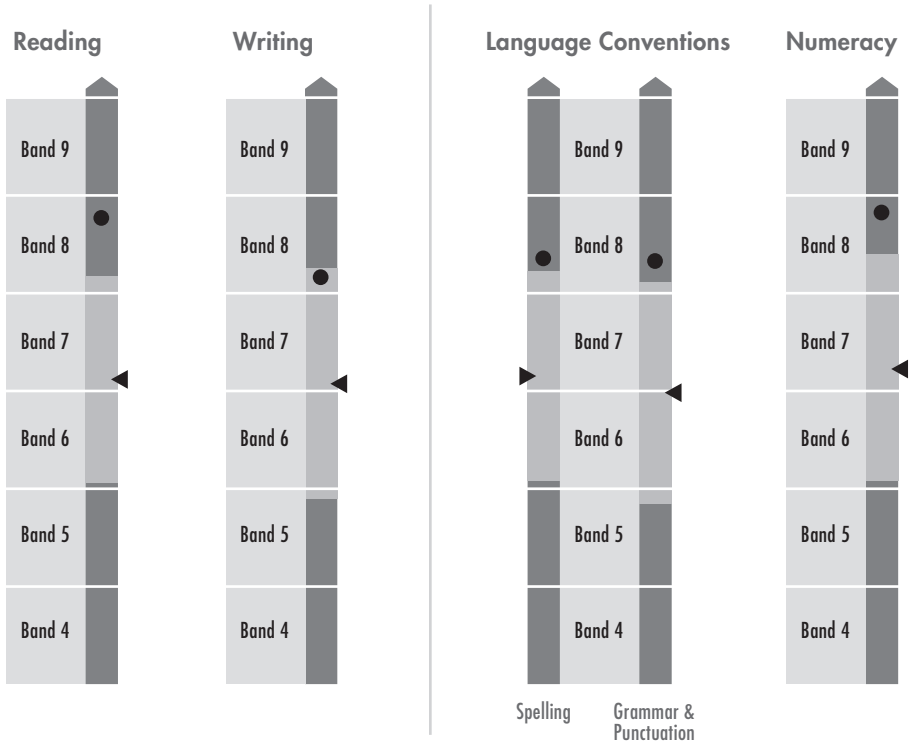

SCHOLARSHIP PREPARATION

Year 8 & Year 9

2011 / 2012

SCHOLARSHIP POTENTIAL

NAPLAN (National Assessment Program - Literacy and Numeracy)

Generally, your child's graph will be in Band 9 or in the top triangle area in Reading and Numeracy. This is around the top 10% or at the 90th percentile rank in Victoria.

The reason we are focusing on Reading and Numeracy is that these basic skills need to be at a very high standard when considering workshops for competitive exams. Our highly skilled staff can use our programmes to improve your child's writing to a high level as long as the reading ability is superior. This is an indication of breadth of literary experiences of the child.

This child has scored well above average in most areas. However, neither Reading nor Numeracy is in Band 9 so it would be our recommendation that this child undertakes one of our Educational Assessments as outlined on the following page. Our diagnosis will clarify whether the Naplan is a true indication of your child's standard and assist in establishing a plan for further development. This will help the parents in their decision to go ahead with an application for scholarship or entrance exam.

If you are confident with your child's potential for a scholarship or place then we recommend that you book for our exam preparation workshops.

POTENTIAL FOR A SCHOLARSHIP OR ENTRY

School feedback

Your child's teachers have probably made comments like:

- is an eager reader,
- provides very alert, rapid answers to questions,
- has a wide range of interests,
- displays a great curiosity especially for new things,
- uses a lot of commonsense,
- has an interest in cause-effect relations,
- has higher than usual powers of concentration.

Educational Assessment by *Hendersons*

If you are uncertain whether your child should sit a scholarship or entrance exam then an Educational Assessment will assist in providing you with clarity. They take 3¼ hours including up to fifteen minutes feedback and cost \$140.

Through a series of tests we will provide an accurate level of your child's performance. We will sit with you and review your child's comprehensive test results, what they mean and your options.

- We will advise you of the likelihood of your child winning a scholarship or gaining a place.
- We will make recommendations for further development.
- We will advise you if you should go ahead with any of our classes
- We will prioritise which classes would be the most helpful to your student.

SELECTIVE ENTRY ACADEMIC SCHOOLS

Selective entry academic schools provide an educationally enriched environment for academically gifted students who are also high achievers.

There are four selective entry high schools in Victoria for students in Years 9 to 12:

- Mac.Robertson Girls' High (taking 225 girls)
- Melbourne High (taking between 308 and 336 boys).
- Nossal High School, situated in Berwick (taking 200).
- Cory High School will be situated in Wyndham (taking 200).

The Education Department uses a centralised selection process to admit students to all selective entry schools for the 2013 school year. The common entrance examination will be undertaken by eligible students in the middle of June 2012. Generally, eligible students are those who are in their second year of secondary school at government or non-government schools (usually Year 8), who are either Australian citizens or who have permanent resident status or an appropriate visa. When enrolling, you need to indicate your choice of schools, in order of preference.

Students who sit the common entrance examination are ranked according to their aggregate score. To be considered for selection a student must reach an acceptable standard in all sections of the entrance examination. Currently 85% of the Year 9 enrolments are selected through the 'examination' process described above with no further information or interview required. 10% of places are allocated according to rank, score and equity considerations. Details of what is an equity consideration may be obtained from the Education Department, www.education.vic.gov.au/aboutschool/enrolling/selectentry. The remaining 5% are selected through a 'Principal's discretionary selection category'. They are asked to write a letter and present a portfolio of achievements. Subsequently, some of these students are invited for an interview.

THE 5% RULE

The maximum number of students admitted to the four schools from any one school must not exceed 5% of that contributing school's Year 8 enrolment. If there are 200 in Year 8 at a school, then no more than a total of ten may be selected.

SPECIALIST SCHOOLS

There are three specialist schools in Victoria:

- John Monash Science School (Science, Maths and associated technologies) Years 10 to 12. An entrance examination is held in July for Year 9 students seeking one of the 220 Year 10 places.
- Maribyrnong College (Sports) Years 7 to 12. Admission is through a detailed application form, references, school reports and interviews.
- Victorian College of the Arts Secondary School (Dancers and Musicians) Years 7 to 12. Admission is through auditions and interviews.

ENTRANCE EXAM FORMAT

MELBOURNE HIGH AND MAC.ROBERTSON GIRLS' HIGH SCHOOL CORY HIGH AND NOSSAL HIGH

Creative Writing - Imaginative type, illustrations are often used as stimulus (15 min).

Analytical Writing - An opinion or argumentative piece (15 min).

Mathematics - A very challenging Maths paper, much of which addresses topics usually covered in the Year 9 curriculum with 60 questions (30 min).

Reading Comprehension - A paper requiring inferential skills to interpret written text, maps, diagrams, graphs, cartoons or photographs with 50 questions (30 min).

Verbal Reasoning - A paper to show how well a student can think and reason verbally with 60 questions (30 min).

Numerical Reasoning - A paper to show how well a student can think and reason numerically with 50 questions (30 min).

JOHN MONASH SCIENCE SCHOOL

Analytical Writing - Two pieces of writing, aimed to display passion and interest in science. 25 minutes each.

Mathematics - A very challenging Maths paper, much of which addresses topics usually covered in the Year 10 curriculum. 30 minutes with 60 questions.

Science Based Reading and Reasoning - A very difficult paper requiring highly developed inferential skills to interpret written text and diagrams. 30 minutes with about 40 questions.

Numerical Reasoning - A paper to show how well a student can think to solve problems by applying numerical reasoning. 30 minutes with 50 questions.

SCHOLARSHIP FORMATS

Below is an example of the schools that ACER, Robert Allwell & Associates and Edutest wrote exams for in 2011.

Note: You must find out the examining body. Schools may change from year to year. Historical data displayed is for information purposes only.

<p>ACER (2011) – close to Melbourne</p> <p>Alphington Grammar Bialik College Billanook College Camberwell Girls Grammar Caulfield Grammar Christ Church Grammar Eltham College Gilson College Haileybury Huntingtower. TYPES OF WORKSHOPS OFFERED

Creative Writing

Our emphasis here is on the structure of an essay, the use of expressive language and the way to respond to an illustration or other visual prompts.

Analytical Writing

Our emphasis here is on the organisation of this type of essay, the use of effective language and the way to express a point of view or an argument.

Mathematics

We focus on Maths problem solving and exam technique. These workshops are not about training in the basic processes of Mathematics. Students entering for Scholarships should already be proficient at Maths.

There are two stages in solving any problem.

- Analysis – What is this problem really about?
What data does the question have which may help solve it?
- Strategies – The skills that will help to solve the problem.

Reading Comprehension

A one-day course to teach students the skills of inferential reading, as well as how to interpret maps, diagrams, charts and illustrations.

Verbal Reasoning

A one-day course to look with the students at the skills required to see relationships and solve problems using words and language. These tests include verbal analogies, synonyms, antonyms and logical reasoning.

Numerical Reasoning

A one-day course to look with the students at the skills needed to see relationships and solve problems using numbers. These tests include missing numbers, worded problems and logical reasoning.

Science Reasoning

A half-day course to look at examples of questions so as to increase confidence in this style of reasoning.

Practice Exams

Are fundamental to our program. Every practice exam comes with complete performance analysis with a detailed explanation for every answer. We provide you with the most authentic testing experience outside of the actual exam.

WHAT COURSES YOUR CHILD SHOULD DO

Our courses are specifically designed to teach exam techniques to able students.

We aim to help by:

- ~ filling the gaps in their experience,
- ~ developing different ways of thinking,
- ~ improving their confidence,
- ~ giving them the opportunity to enjoy a challenging educational experience,
- ~ encouraging responsibility for their own learning as part of a lifetime development.

To fully prepare for scholarship exams we recommend that you undertake the following :

Melbourne High, Mac.Rob Girls', Nossal High and Cory High

Creative Writing
Analytical Writing
Reading Comprehension

ADDITIONAL ASSISTANCE

ESSAY CORRECTION SERVICE

We will set the topics for your child to complete at home. Under your supervision, they can reinforce their current learning. Your child will be provided with addressed envelopes to the corrector. We guarantee that the essay will be in the mail within 48 hours of receipt. We have the option of three essays (\$60) or six essays (\$120).

INDIVIDUAL TUTORING IN MATHS AND ENGLISH

We do provide additional individual tuition for the workshops in our Hawthorn offices.

We do not offer our workshops on an individual basis as much of the learning that takes place is reinforced by the interaction between the students in the small group. Individual workshop tuition is available for those seeking additional clarity of content covered in workshops. One hour of tuition may be all that is required to turn the light on.

Scholarship and Entrance Exam tuition:

- \$70 per hour
- All payments must be made prior to first session.
- Small groups can be arranged upon request at \$50 per student per hour.
- One hour sessions after school are available subject to appointments already made.

Tutors are available on most week days. As these tutors also do general tutoring, they are usually fairly heavily booked so appointment times need to be made early.

INTERVIEW PREPARATION

With our years of experience, we have amassed a large number of questions that may be asked in the interview. Please contact our staff for a copy of these questions when you have been called for an interview. We also conduct a one and a half hour mock interview to assist your child. Cost of the interview preparation is \$100.

PORTFOLIO ASSISTANCE

Some schools ask that potential students prepare a portfolio to present at the time of interview. We can assist. We do recommend that the first draft be prepared by your child as the student will be the one presenting it. The cost depends greatly on the quality of the first draft, though an average time is one to two hours at \$70 per hour.

FREQUENTLY ASKED QUESTIONS

When do I need to pay?

You must pay for the first session or any bookings for the current month at the time of booking. We do offer a \$20 discount for all bulk payments of \$500 or more. Otherwise, fees are payable on the 1st of the month in which the workshop is scheduled. Payments need to be made prior to the workshop day.

Many other companies offer longer programmes. Does Hendersons?

Yes. Our English classes are called Snapshots and our Maths is called Intro to Problem Solving.

Why are there half days and full days?

For students of this age we find that after, three hours of concentration, teaching and learning becomes less effective. Reading Comprehension is only available in whole days because the momentum of discussion would be lost if interrupted.

My child is an avid reader, does he/she need to do Reading Comprehension?

That's great. It is an imperative component as it will have definitely helped with their vocabulary. Our workshop develops those existing skills and teaches techniques to infer answers from text, maps, diagrams, charts and illustrations.

Why do you do workshops by groups?

Because it works. Bright children like to interact with and will learn from others of a similar intellectual level.

Will doing the workshops get my child a scholarship?

We believe that what we offer will greatly aid the successful attainment of a scholarship or placement interview. Remember that the best actor did not always get the role on the first attempt.

What if my child is sick or cannot attend?

We will endeavour to arrange a replacement date for any absences. As Saturdays and Sundays are generally fully booked, you will be placed on a waiting list for the other groups. *Please note that a cancellation charge may be applicable.*

What feedback do the parents get?

Parents will have group feedback sessions at the end of the workshop. For most classes, you need to be here 10 minutes before the scheduled end time.

What are the workshop times?

Whole day 9.15 am to 3.15 pm
Half Day (AM) 9.00 am to 12.15 pm
Half Day (PM) 1.00 pm to 4.15 pm

Lunch and morning tea is provided for whole days. Morning or afternoon tea is provided for half day workshops.

What are the office hours?

Monday to Friday from 9:30am to 5.30pm (during school term)
On Saturday and Sundays, the staff will be able to assist in taking payments. As we are extremely busy on the weekends, we ask that you contact the office from Monday to Friday with any queries. You can email us at any time at info@hendersons.com.au

Can I just do one workshop?

Yes, though we do recommend all workshops to be undertaken for your child to be fully prepared. If you were to do just one thing then it should be a Practice exam.

What is your track record?

We have had a consistent percentage of our students winning scholarship interviews. Over the last several years we have had about half of our students, each year, achieve their goal of a scholarship or entry to an Accelerated or High Achiever Programme.
